“ I remember the first time I had ever had brussel sprouts, Betty was the one that got me to actually try them twenty something years ago and I loved them. Many happy memories at her place. Prayers and hugs to you all. Just remember you are always in her heart, and she in yours.

“ When I was 12 40 years ago!! secretly wanted to be part The Kinsel Family. There was always so much activity and conversation going on. With 5 children, she always seemed so calm and thoughtful, and took time to show interest in my life. I thought she was an amazing mother and seemed to be able to manage so many things at once - never hesitating to set another place at the dinner table
