“ Danny was my first manager at General Valve 20 years ago. He was such a kind person. I'm very sad to hear this. Rest in peace Danny.

“ I worked with Danny twice at WKM/Cameron. Danny was tasked with “showing me the ropes” when I was a new employee. and was always very helpful. We eventually worked together on a variety of projects. Danny was always very creative often coming up with some off the wall ideas. But these often led to good, unique solutions. I am honored to be named in several patents along with him. Danny was always up to any challenge that came his way both professionally and in life and suppose that powered his creativity. His positive approach and “can do” attitude were amazing. Difficulties were often treated as challenges in a way that “Let’s see how I (Danny) can solve this”. He always maintained his composure no matter how difficult the situation. He was thorough in his work and often uncovered things that no one else noticed. As others have mentioned, he was always into some new hobby or project which made him very interesting to talk to. Going to miss you Danny...in your own words... “Take care”.

“ I met Danny later in his career while at RMS. He always had great advice and impressed me with his hobbies and career stories. I was amazed the local authorities let him keep the flame thrower. He is missed.

“ I worked with Danny at RMS the entire time he was here. He kept up his PE right to the end. He was always a bright light. His love for Anna and his children came through all his conversations. I will miss his words of wisdom, his wit, his grit, he was unstoppable. He had a zest for life that few do, I remember him going flying, playing with a flame thrower, always had some rigne or gun he was experimenting with. he'd get a wild idea to try something and the next thing you knew, there it was. He always had a kind word. I miss him, his laughter, his smile, his kindness. I hope he and Anna are together again in peace.

“ Danny and I worked together at the WKM Valve Company in Missouri City for a number of years. He was a wonderful person and a superb engineer; very innovative and was granted a number of US patents. Danny was always cheerful and never let his polio from childhood slow him down. When water-skiing on Lake Livingston was not practical for him, he brought a huge truck tire inner-tube to ride and had more fun than any of us! A sparkling personality who will be missed by all who knew him.

“ *Danny and I work together at WKM when I was in college. He had such a great smile and such a great attitude about life. He and the guys he worked with were just for awesome. I know Dad kept up with him over the years, I was not as lucky. He holds a special place in my heart and I know I will see him again someday. 🙏❤️🙏*
