“As the oldest brother in the family, Dean was a great leader and encourager to us younger siblings. He lead the way thru college graduation for all of us. He encouraged me to remain in a more difficult engineering curriculum that greatly changed my life. He was always willing and able to reach out to help others in the family as needs became known. I always so much enjoyed spending time with Dean in our annual get-to-gathers. I was not ready for him to go, but our Lord had different plans. Earl”

“ I am deeply saddened by the passing of Dean Henning, whom I worked with at Shell for 8 years. Dean was hard working, cordial, and always ready to lend a hand. I had benefited a great deal from Dean by his work ethics and skills. He represented the values, the spirits, and the good of this great country. Dean will be truly missed!

“ Our deepest sympathies to Dean's family. I worked with Dean at the wave tank in the 70's photographing their prototypes/experiments and my late husband, Richard, worked with Dean at the wave tank as well in the 90's. Dean was such a gentle soul. He takes a little piece of each of us with him but he also leaves a small piece of himself with us. He was a great person and will be dearly missed. Our prayers are with his family and friends.

“ Linda,  
  
I am saddened to hear of Dean's passing, Jorge and I enjoyed running into him around town. We always got to catch up with him when we least expected it. My condolences to you and your family.
