“ I never had the pleasure of knowing George, however I have been fortunate to see the fruits of his labor at Nalco. I now have the privilege of leading the Nalco R&D team and many of the products that George developed during his successful career are still in existence today. Thank you for everything you did to pave the way for those of us who follow in your giant footsteps.

“ I have fond memories of my employment at Nalco during the mid-'70s, largely in part because of my association with George. He was a tremendous help to me. I can still see his smile and hear his laughter!

“ I had the pleasure of working with George from the late '70's until he retired from Nalco. He was such a kind person and so knowledgable about anything to do with the oilfield. He taught us all a lot. He could always explain things with such a common sense approach. And I know he loved animals....his office only had pictures of his cat! I'll never forget that about him. You all should be proud of the legacy he left behind at Nalco!
