“ *RB was my biggest cheerleader. I penned, he read and enjoyed. He'd text me with critiques and kudos. Twenty years of communication with an online buddy. The world has lost a funny, encouraging soul. Sending hugs to Lora*

“ *Great memories with you and RB. I'll never forget the time we ended up in an empty lot in Oregon for the evening on our way to the RVAmerica rally. We were all pretty tired after a long drive and you and Bobbie threw together a really good meal. It was a nice, relaxing evening.*

RB and I both enjoyed our love of cars and would often 'test' each other to see if we could identify classics and customs from the 50's and 60's.
