“ Peanut, aka "Tim", has always been a wonderful friend to me over the last 38 years. He made the Collegiate Nationals a possibility for me. Tim was always there to offer advice and help when he could. Little guy with a huge personality!

“ Tim was a passionate engineer, he also did great work and wanted engineering done right. When we look at exceptional project performances they frequently had Tim's touch on the project. He would make me smile as he had such a strength of passion for his perspective that it seemed like you were talking with a much younger engineer with unusual years of experience.

*I liked traveling with Tim, working with him and am sorry he's gone too soon.*

“ Tim always reached out to any jumper. He was so helpful for those of us that were new. I still jump Tami's rig that he sold me when I started 11 years ago and always think of him when I put it on. Such and inspiration and blessing to all that were touched by him. Blue Skies Tim - thanks for the memories.

“ Tim was a great engineer and a mentor. I worked with him close to 15 years. He was great company on our travels on project work. He loved a good argument and rarely wrong about things. He was passionate about his work and about doing things the correct way.

*My deepest sympathies to Tami and family. I will miss Tim.*

“ Tim and I worked together for just a bit over 18 years. He was a great engineer and I helped to provide development and software support. When I answered my phone to Tim's distinctive "Hello", I knew that I was in store for a great conversation. "Tim, where in the world are you?" I would often ask because Tim was likely to be somewhere very far from home. I had the pleasure of traveling with him a number of times. Tim could have been a great cultural ambassador.

*My deepest sympathies to Tami and family. I will miss Tim so much.*

“ Tim was a volunteer pilot with Angel Flight South Central almost from the very beginning. He 1st signed up in 1993! His last mission with us was in Sept 2013. He was a most valued member whom I spoke to often over the past 15 years of my time here with AFSC. I want Tami and the rest of his family to know you have my deepest sympathy.

“ Tim told me great stories of his adventures since he traveled a great deal. He could put a smile on your face and on the other hand ruffle some feathers!! He will be missed. Flying sick people to far locations for medical treatment was a true contribution to mankind. Now he has his wings.

“ Tim has been such a great friend, an inspiration, and our HERO. Who else would be told he has a fatal disease and live life to the fullest...who else jumps out of planes, Who else would continue to work and never complain about the pain, who else even when he could not speak could share his feelings, who else could have such a passion for life that we can only smile and thank God that Tim is having a lengthy conversation with Jesus about all the things we want to know!!

*Bless you Tami. We love you. Jo & Loyd*
