“ *Bill was my 7th grade principal at "MoQua" JH. Then my friend and I spent the summer hanging out and helping get the QVJH ready to open the following summer. After college, he was in HR at Fort Bend and hired me for my first teaching job. Two years ago, we moved my mom into the same assisted living place, and I have spent many hours visiting with him. As a lay minister, I did weekly church services at the facility, and always loved seeing his eyes light up when we sang "How Great Thou Art" (song of his alma mater Howard Payne). After one of our first services, I asked if there was anything the residents would like to add to our service and Bill immediately said we should go around the room and say what we were thankful for each week. We have done that every time since, and Bill always said he was thankful for his family and that we live in a place where we can worship God without fear. He could be feisty for sure, and witty, but mostly he was a very sweet and God-loving man. Rest well Bill in our Savior's loving arms.*

“ *I will always be grateful to Bill for giving me my first school administrative position when Quail Valley Middle School opened. I appreciated how he backed his teachers and other staff.....made it easy to do your job.*

We attended the same church for years. One Sunday Bill and I were sitting together, and right in front of us were a young man, his girlfriend, and her mother. Once we stood up, we noticed that the young man had on a new suit... along with the sewn-on sleeve tag with size and price!! Bill leaned up quite embarrassed for the boy and tried to discretely inform him. The boy, however, took it in stride, as the whole section began to laugh. Bill, from a different generation, would have wanted to crawl under the pew! Over the years, though, he loosened up. (Perhaps getting shot made a difference). He was one of a kind and will be missed.

“ Bill was my seventh grade science teacher. I'll never forget the time he offered “extra credit” if we could name something that was once alive but is now dead that doesn't contain carbon. He was surprised when I came up with an answer... the only student who got extra credit! 🙌 Then, later in life, Bill talked me into taking a middle school reading job instead of going to the high school. This led to my first administrative job and years of mentoring from Bill Moore.... I learned from one of the best!!! I credit Bill with starting my educational journey. He will be lovingly remembered and greatly missed.
